

EU-COST Action CopyTree Webinar Series

Tuesday, 28/01/2025
03:00-04:30 PM CEST

How to join the webinar?

Please register for the webinar via this link (or scan the qr code):

<https://thuenen.webex.com/weblink/register/r79f9f36f2049ddd59e2368915ceeac3e>

Afterwards, you will receive an e-mail with a link to join the webinar session. You can switch the language of the registration form at the top of the website. The webinar will be held using the Webex video conferencing system. You can access with any web browser as well as the Webex app.

Upcoming webinars

Tuesday, 25/03/2025 – 03:00 PM CET

- Andrea Rupps et al. (Humboldt University Berlin, Germany) – The German project LarchForFlexibility: Ready for the market - How trees are selected, produced and approved
- Sara Forlani (University of Helsinki, Finland) – How stomata develop in a leaf: the case of the model species *Arabidopsis thaliana*

Contact

Questions or suggestions about the webinar? You would like to contribute? Please send me an e-mail: tobias.bruegmann@thuenen.de

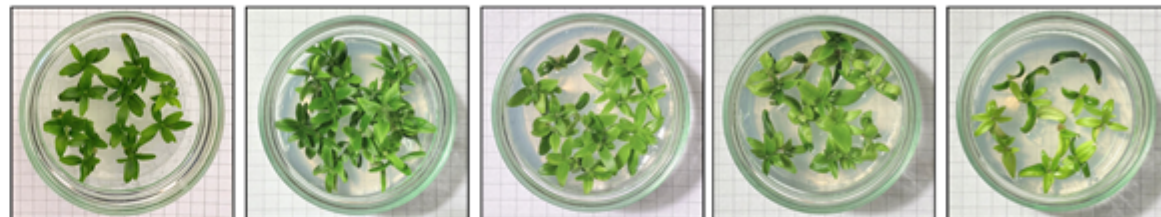

Dr. Tobias Bruegmann, Germany, CopyTree Webinar Coordinator

The *in vitro* culture of olive trees as a tool for studying the impact of abiotic stresses and the effect of substances with biostimulant action

Luca Regni

University of Perugia, Italy

Second presentation

Unfortunately, there is only one presentation for this webinar so far.

This could be your chance! Is there anything you'd like to share with the CopyTree community?

Feel free to send me an e-mail at tobias.bruegmann@thuenen.de!
